

Celebrate Earth Day!

What If We Do NOTHING? Series

EARTH WATER CRISIS- Examines the potential for a serious global water crisis, the effects of global warming on water supplies, and ways to keep nations from going to war over water.

EARTH'S GARBAGE CRISIS- Examines the careless use of the Earth's natural resources, efforts to encourage recycling of garbage, and ways to safely dispose of industrial waste.

GLOBAL WARMING- This book describes the causes and effects of global warming and explains what we can do to preserve human health, endangered species, and land from being lost.

RAIN FOREST DESTRUCTION- This book describes the causes and effects of deforestation and explains what we can do to stop the destruction.
