Concussion Information

What is a concussion?

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

What are the signs and symptoms of concussion?

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- Vacant stare or seeing stars
- Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- Headache or persistent headache, nausea, vomiting
- Altered vision
- Sensitivity to light or noise
- Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo (spinning) or loss of equilibrium (being off balance or swimming sensation)
- Decreases coordination, reaction time
- Confusion and inability to focus attention
- Memory loss • Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

What do I do if I suspect my child has suffered a concussion?

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes) or a licensed nurse practitioner (NP, as per Chapter 464, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

When can my child return to play or practice?

Following physician evaluation, the *return to activity process* requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit <http://www.cdc.gov/concussioninyouthsports/> or <http://www.seeingstarsfoundation.org>

Statement of Student Athlete Responsibility

I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

FHSAA Heat-Related Illnesses Information

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body's natural air conditioning, but when a person's body temperature rises rapidly, sweating just isn't enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

Heat Stroke is the most serious heat-related illness. It happens when the body's temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

Heat Exhaustion is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

Heat Cramps usually affect people who sweat a lot during demanding activity. Sweating reduces the body's salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

Who's at Risk?

Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.

By signing this agreement, the undersigned acknowledges that the information on page 1 and page 2 have been read and understood.

SPORTSMANSHIP AGREEMENT

Dear Parent/Guardians:

Your son or daughter has indicated a desire to participate in interscholastic athletics and you have expressed your willingness to permit him/her to complete. We, who are concerned with the educational development of boys and girls through athletics, feel that a properly controlled, well-organized sports program meets the students' needs for self-expression, mental alertness and physical growth. Our hope is to maintain a program that is sound in purpose and that will further each student's educational maturity.

When your son-daughter enlists in one of our sports programs, the school staff commits to the following responsibilities and obligations: 1) encourage and monitor classroom achievement; 2) provide adequate equipment and facilities; 3) provide a certified head coach; 4) provide equalized contests with skilled officials; and 5) provide adequately supervised transportation to away events when possible. It must be understood that being part of an athletic team does not guarantee a minimum amount of playing time. Head coaches and their staff will determine who will represent the school in the sport for which they are responsible. High school athletics is an extra-curricular activity that makes it a privilege to participate and not a right.

As parents you have committed yourselves to certain responsibilities and obligation as well. As a parent/guardian of a potential athlete at this school you are expected to do the following: 1) encourage your son/daughter to work hard in the classroom; 2) support our coaches' decisions or to arrange a private meeting with both the coach and/or athletic director should a conflict arise; and 3) attend as many games as possible and cheer for our school, and specifically, for your child.

Good conduct is expected on the part of all involved. Profanity and/or unnecessary comments toward student athletes, game officials, coaches and other fans will not be tolerated at any interscholastic contest. Such behavior may result in the dismissal or removal of such an offender from participation in, or attendance at school athletic events.

Please understand that college athletic scholarships are earned by meeting certain academic and athletic requirements that are set forth by the National Collegiate Athletic Association (NCAA). Guideline and information on the college recruiting process are available in the Athletic Director's Office or through the NCAA Clearinghouse.

By Signing below, I agree and understand the contents contained in this letter.
