

**Grade 9 Summer Assignments
Ms. Ferreyros**

Sketchbook Assignment One

Study of Organic Structure

- Develop a **two page** spread of an organic form such as an orange, banana, tomato, or another similar form that can be opened and observed.
- Draw the form several times from different angles.
- Draw the edges of the structure using line.
- Write notes on your observations and describe the structure of its parts.
- Incorporate different media, or materials into your investigation.
- Look at the actual object in front of you carefully. Do not work from a photo or a screen.

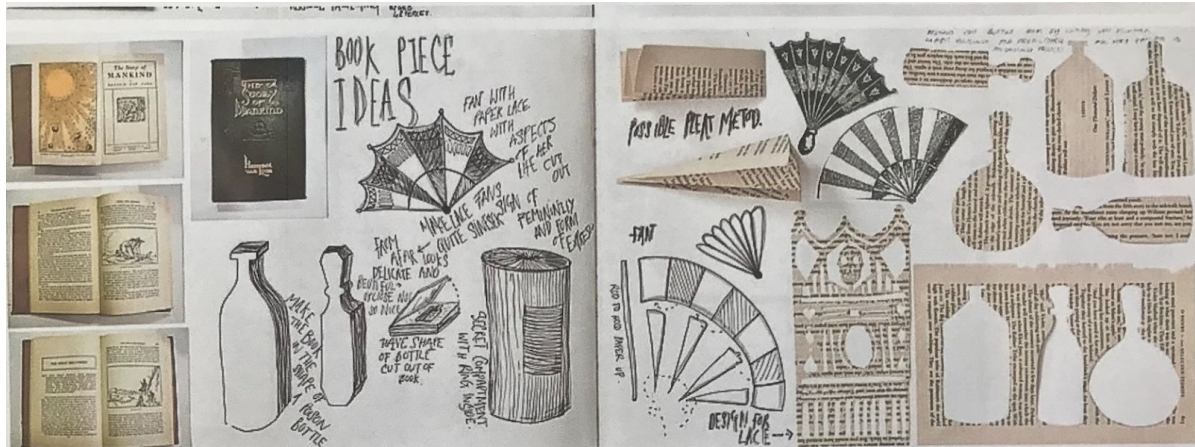

Sketchbook Assignment Two

Study of Space

- Develop **four pages** of several spaces in your home, this could be parts of the same room or different rooms.
- Look at the actual space.
- Practice drawing using line and following the contour (edge of the surfaces).
- You may add value (lights and darks) in your studies.

Sketchbook Assignment Three

Study of A Mass Produced Object

- Develop **four pages** of one mass produced object such as a gatorade bottle.
- Look at the object as you work and make several drawings of its structure.
- Incorporate line and value drawings.
- Create paper cut outs of the object's shape using newspaper or wax paper.
- Be intentional about how you compose the pages so that your investigations are visually appealing.

Sketchbook Assignment Four

A Play on Self Portraiture

- Using one page, draw something that shows me an aspect of yourself without drawing yourself (your face or body).
- Use any media, or material that you would like.
- It can be realistic or abstract,
- Your work might be a an illustration of something you like, or an abstract design with your favorite materials or colors.
- There are no wrong or right answers.
