

SLOPES

## Positive Slopes

## Negative Slopes

RISE UP  
RUN OUT

# Special Slopes

$$m = \frac{\text{rise}}{\text{run}}$$

$$m = \frac{0}{8} = 0$$

$$m = \frac{\text{rise}}{\text{run}}$$

$$M = \frac{6}{0}$$

= undefined

**The slope of horizontal lines is zero. The slope of vertical lines is undefined.**

# Match the graphs with the correct slope

A. zero

B. undefined

C. negative

D. positive

1.

2.

3.

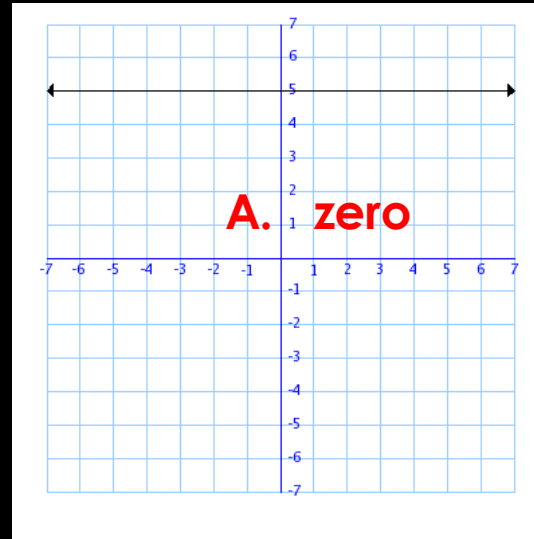

4.

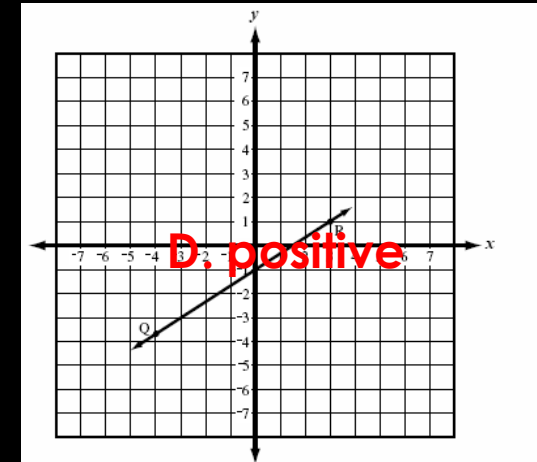

# Match the graphs with the correct slope

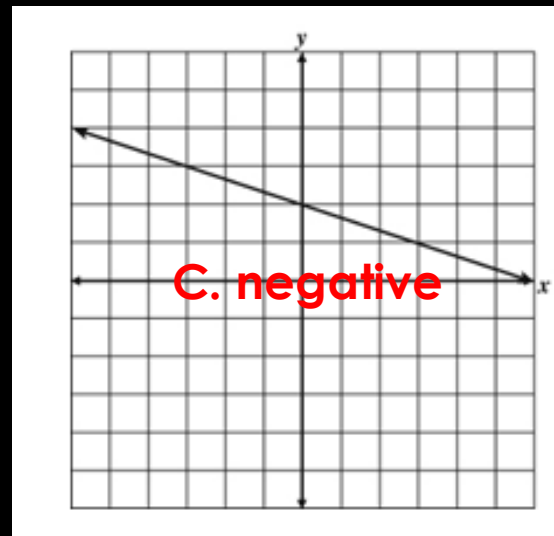

1.

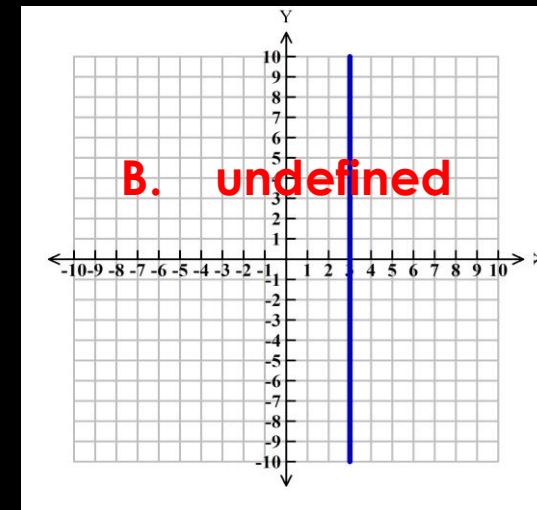

2.

3.

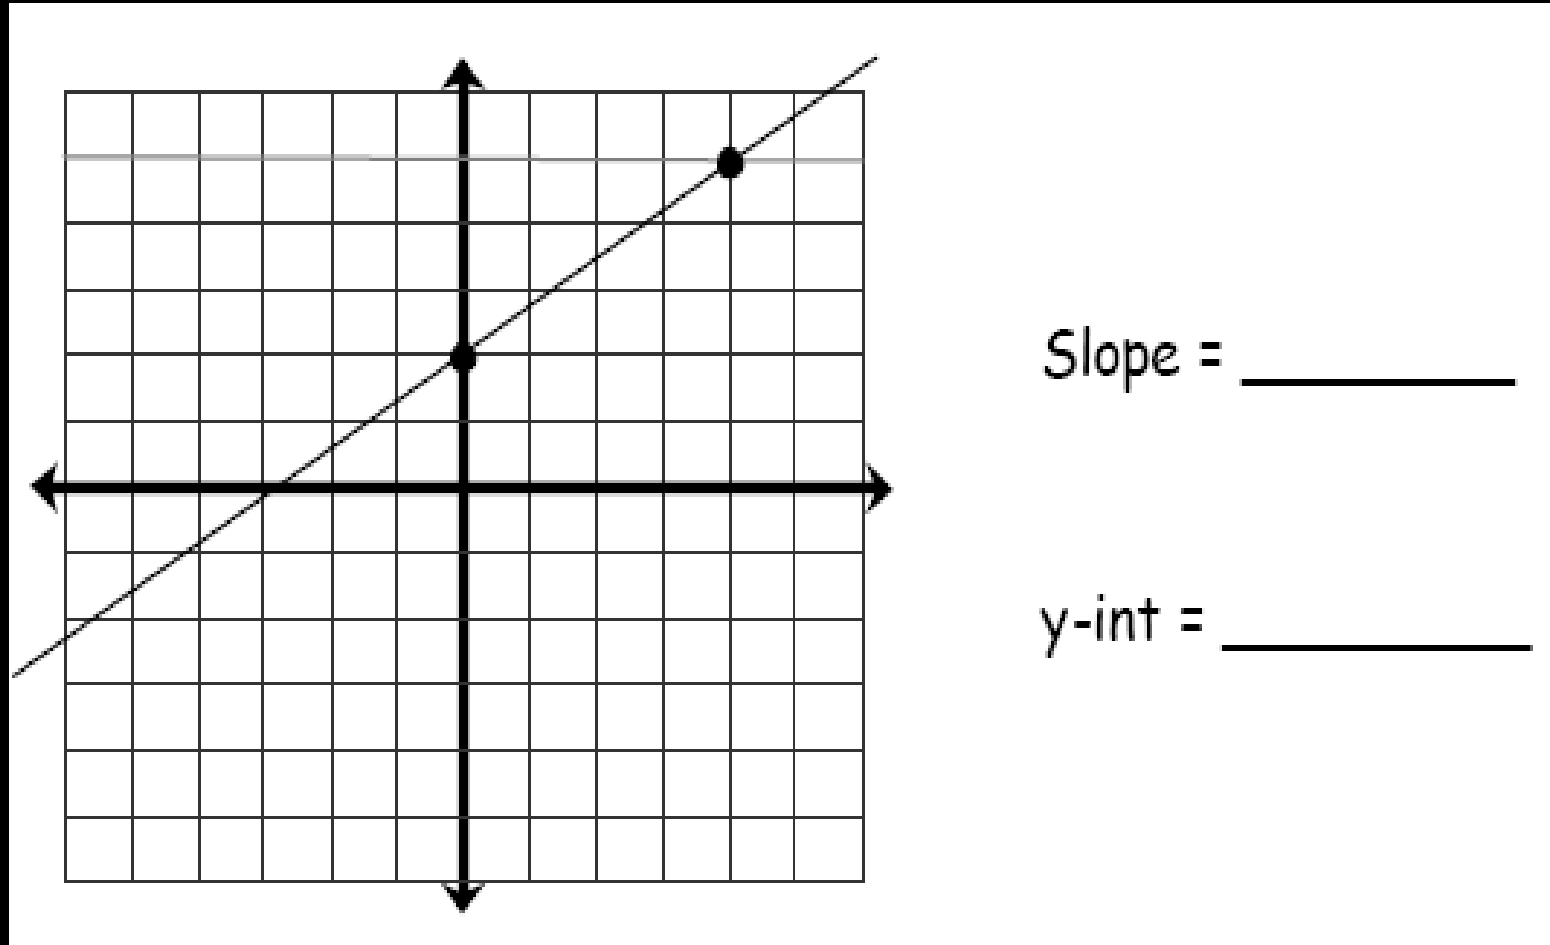

4.

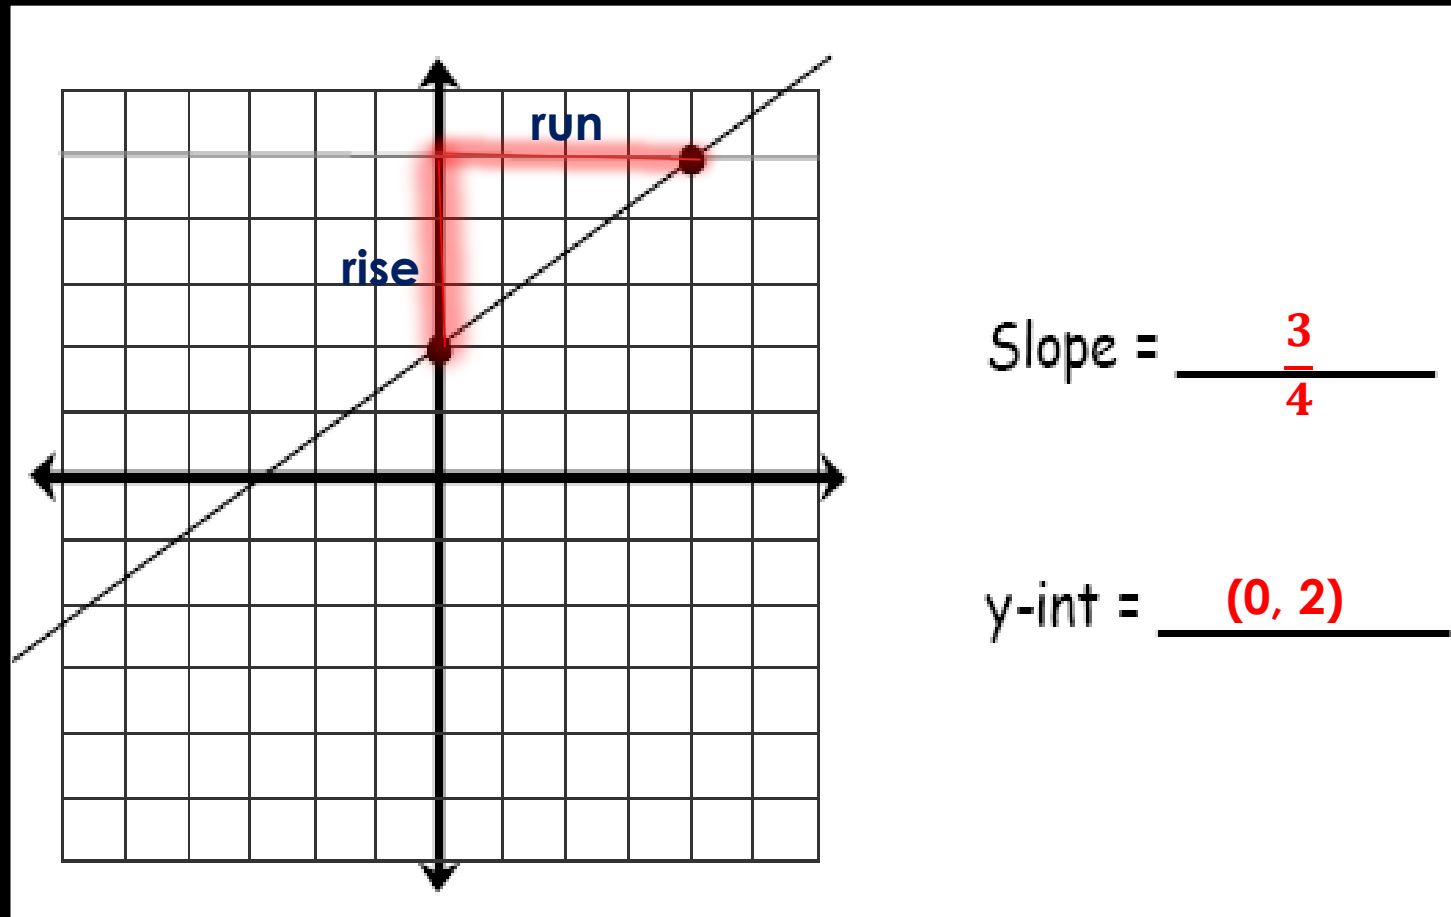

Find the slope and y-intercept of the line below

Slope =  $\frac{\text{rise}}{\text{run}}$

Find the slope and y-intercept of the line below

## Select all the answers that are correct.

- A. In the equation  $y = mx + b$ ,  $b$  represents the slope.
- B. In the equation  $y = mx + b$ ,  $b$  represents the  $y$ -intercept.
- C. In the equation  $y = mx + b$ ,  $m$  represents the slope.
- D. In the equation  $y = mx + b$ ,  $m$  represents the  $y$ -intercept.
- E. A line has infinite slope because it depends on the points you choose.
- F. A line has only one slope irrespective of the points you choose on the line.

## Select all the answers that are correct.

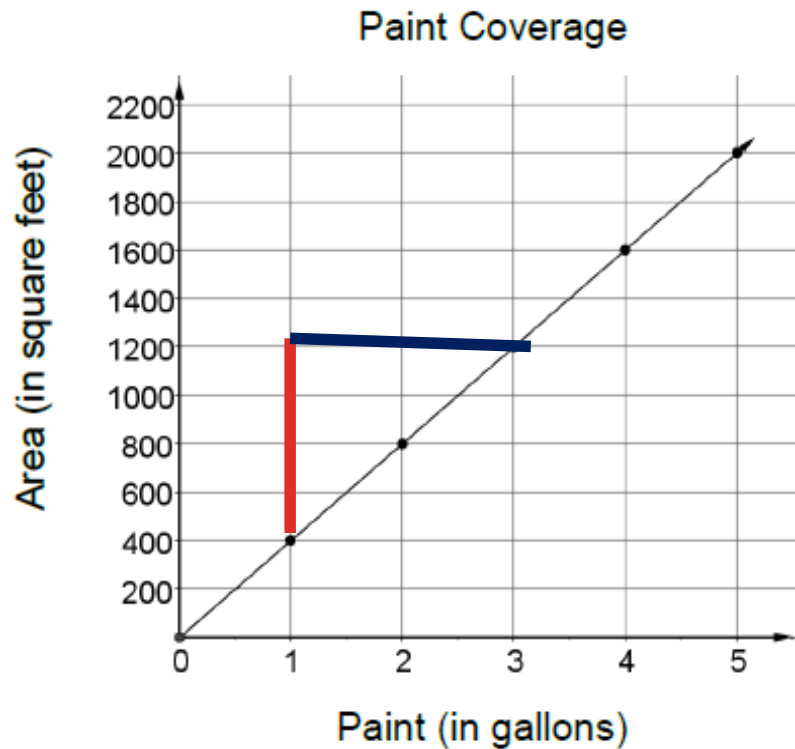

- A. In the equation  $y = mx + b$ ,  $b$  represents the slope.
- B. In the equation  $y = mx + b$ ,  $b$  represents the  $y$ -intercept.
- C. In the equation  $y = mx + b$ ,  $m$  represents the slope.
- D. In the equation  $y = mx + b$ ,  $m$  represents the  $y$ -intercept.
- E. A line has infinite slope because it depends on the points you choose.
- F. A line has only one slope irrespective of the points you choose on the line.

Antwan is painting all the rooms in his house this year. Below is a graph representing the relationship between quantity of paint and the area covered by the paint.

**Find the slope of the line and describe it in words.**

Antwan is painting all the rooms in his house this year. Below is a graph representing the relationship between quantity of paint and the area covered by the paint.

$$\text{Slope (m)} = \frac{\text{rise}}{\text{run}}$$

$$m = \frac{1200 - 400}{3 - 1}$$

$$m = \frac{800}{2} = 400$$

The slope means that one gallon of paint will cover an area of 400 square feet.

Line  $t$  and  $\triangle ECA$  and  $\triangle FDB$  are shown on the coordinate plane.

Which statements are true? Select all that apply.

- The slope of  $\overline{AC}$  is equal to the slope of  $\overline{BC}$ .
- The slope of  $\overline{AC}$  is equal to the slope of  $\overline{BD}$ .
- The slope of  $\overline{AC}$  is equal to the slope of line  $t$ .
- The slope of line  $t$  is equal to  $\frac{EC}{AE}$ .
- The slope of line  $t$  is equal to  $\frac{FB}{FD}$ .
- The slope of line  $t$  is equal to  $\frac{AE}{FD}$ .

Line  $t$  and  $\triangle ECA$  and  $\triangle FDB$  are shown on the coordinate plane.

Which statements are true? Select all that apply.
